Welcome to the iPad!
What is an iPad?

The iPad is not a laptop

• There is no mouse or trackpad!
• No tab keys or direction arrows
• No CD drive or USB port
My definition is that an iPad is a Consumption Device, not a Production Device -

Use it for reading, learning and entertainment - not writing your 1st novel.
Which model iPad to buy?

- I recommend the 16 GB as you can change your music any time during sync.
- Only buy the 3G model if you plan on traveling a lot with your iPad where there is no WiFi connection.
- In other words, most of you should buy only the base $499 unit.
- AT&T or Verizon is up to you!
Note the combination of: **Icons** and **Folders** (I have over 200 Apps!)
You can take these ‘screen shots’ by holding down the Power button on top and the round button on the bottom - useful for capturing screen error messages or other oddities you want to share later the Genius Bar staff.
My “News” Folder - 18 Apps

Larger helmet could guard against brain injury to troops

Updated 16h 28m ago
By Gregg Zoroya, USA TODAY

The Army could reduce the risk of brain injury to soldiers simply by having them wear a size larger helmet containing slightly thicker padding, according to a study to be released today.

An eighth of an inch more in cushion could decrease the force of an impact to the skull by 24%, according to findings by researchers at Lawrence Livermore National Laboratory in California.

Brain injury is a common occurrence in Afghanistan, and the Army wants to verify the findings and move toward possibly issuing larger helmets with the extra padding, Brig. Gen. Peter Fuller says.

Fuller, outgoing commander of the Army office that equips soldiers, said the results are encouraging and possibly worth fielding on a limited and experimental basis with a brigade of soldiers. He said more research and validation of the findings are necessary.

Last summer, battlefield doctors in Afghanistan diagnosed more than 300 servicemembers per month with concussions or mild traumatic brain injuries and smaller numbers of servicemembers with more moderate or severe head wounds.

Concussions are a common wound among troops knocked about inside armored vehicles or flung to the ground while on foot patrols by an explosion from a roadside bomb, or improvised explosive device (IED). The study’s findings offer an answer drawn from equipment the Army already has, researchers say.

"This is what appears to be an off-the-shelf solution," says William Moss, a Lawrence Livermore physicist who co-authored the study.

Helms normally weigh about 5½ pounds. A size larger headgear would add about 4 ounces, Moss says. The study, which was funded by the Pentagon's Joint IED Defeat Organization (JIEDDO) found that adding padding beyond an eighth of
The Washington Post -
still free ... for now!
Full free content - Wash. Post, LA Times - & hundreds of other papers.
The New York Times - only the Top News is still free

Full Access is $1 per week
Slate is a great free news reader, supported by ads across the bottom of the screen.
After reading the News, it is time for some fun ...
What did I miss most of all in dropping the daily paper?  
The Funnies - but not with this App!
Words w/ Friends is a Scrabble game you play on-line with friends.
You play it just like Scrabble
I play upwards of six games at a time with various friends!
The #1 downloaded game

Angry Birds
Fun - but addictive!
Reading books on the iPad is wonderful and you have the choice of numerous Reader Apps.
Apple’s iBooks has the classy look of an old fashioned bookshelf.
iBooks has great options - text size, brightness, search and bookmarks.
Sports are a passion and the iPad makes them come alive
I can watch or listen to the Seattle Mariners while still in the desert.
Do you play golf?
The GolfShot GPS App maps out your next shot while on the course. Costs $25 but that is just 10% of the cost of a dedicated Golf GPS!
The 18th hole of the Grove course as viewed from my living room!
My Utility Folder contains a dozen practical Apps
Google Translator lets you communicate with your gardeners - Speak and it talks back in Spanish!
I think Mail is even better than on our MacBook, you can monitor multiple email accounts at once.
Under Settings I can access our four different email accounts
The glass keyboard takes a little getting used to, but I can now touch type quite fast and it auto-corrects! Or ‘hunt and peck’ if you like.
With multitasking, there is no need to close a program to look at another, just double-tap the front button to bring up all open programs.
Safari on the iPad can look just like on your MacBook, by adding a Bookmarks Bar.
Just turn on Bookmarks Bar in Settings under Safari
And if you sync your Bookmarks from your MacBook using MobileMe, they all appear on your iPad.
You can open upwards of nine Safari windows at a time and switch back and forth between them.
Just like on your MacBook, you can
check your Browsing History
or     Add new Bookmarks
The iPad notifies you when your Apps need updating, here I need 3 updates.
Just visit the App Store and click on Update All
The Photo Album App is like iPhoto, you can display your pictures by Album or Events.
Select a photo and you can: email, print, or copy it.
A great trick - when you turn on the iPad you have the option to turn it into a Photo Slideshow Viewer by clicking the photo icon.

(My other passion - Boating in the Pacific NW!)
Under Settings I control the transition and how long to display each photo in my slideshow.
The AddressBook App has a classy look and a handy link - add your contacts’ birthdays & anniversaries and they show up on the calendar!
The calendar can automatically add National Holidays and your Contacts birthdays and anniversaries.
Need directions?
Click on a Contact’s address to open Google Maps
Clicking on an address in Contacts brings up the Google Map
Use the Notebook App to keep track of misc. information - and it will sync automatically to your iPhone and MacBook with MobileMe.
There are dozens of great Food and Drink Apps and most are free.
Epicurious contains all the recipes from Gourmet and Bon Appetit Magazines - and it's free!
The recipe photos are tempting!
Ingredients

- 3 large shallots, minced
- 6 tablespoons chopped fresh mint
- 6 tablespoons chopped fresh oregano
- 6 large garlic cloves, minced
- 1 tablespoon sugar
- 24 lamb rib chops (from three 1 1/4-to 1 1/2-pound racks of lamb, cut between bones into individual chops)
- 6 tablespoons extra-virgin olive oil
- 3 tablespoons fresh lemon juice
- 1 tablespoon finely grated lemon peel
- Fresh oregano sprigs (for garnish)

Recipe

- 1/2 teaspoon dried thyme
- 1/2 teaspoon salt
- 1/4 teaspoon black pepper
- 1/4 teaspoon allspice

1. Season lamb chops with thyme, salt, pepper, and allspice. Let stand at room temperature 1 hour.

2. Preheat grill to medium-high heat. Grill lamb chops until done, about 3 minutes per side.

3. Transfer lamb chops to platter. Garnish with fresh oregano sprigs and serve.

Full recipes - and Ingredients List plus Reviews from other cooks.
My Entertainment Folder contains 16 Apps - I can watch movies or TV with Netflix, Hulu or ABC - or listen to Internet music with Pandora.
A final Tip - Use the Side Switch to Mute sound or Lock Rotation - so you can turn the iPad without rotating the image.
